

Pre-Master's Programme

Course Summary

Excel College's Pre-Master's Programme is designed to be taken as a one-year course that will equip you with the skills and knowledge you need to study at postgraduate level in the UK. Our PMP includes three modules:

1. Academic English (**IELTS**) or Subject Module (**Business** or **IT**)
2. English for Specific Purposes (**Business English** or **Legal English**)
3. **Study Skills**

Our Academic English component provides specific preparation and training for the academic IELTS exam to help you achieve the score you need. The subject modules lead to an internationally recognised Level 3 qualification and are complemented by modules in English for business or law.

Our Study Skills module will help you learn how to read effectively at university, how to take notes from your reading and from lectures, how to write reports, summaries and assignments and how to speak to your lecturers and classmates.
